DEPUTY HARBOUR MASTER

The Bristol Port Company owns and operates the docks at Avonmouth and Royal Portbury, a general cargo port with some 3,000 commercial vessel movements each year, vessels ranging in size from coaster to post-Panamax. The Port is a Statutory and Competent Harbour Authority, and a member of the UK Major Ports Group.

A vacancy will arise in July 2022 for a Deputy Harbour Master, when the incumbent takes on the role of Harbour Master, and applications are sought for a replacement. The role encompasses the full span of responsibilities articulated in the Port Marine Safety Code (PMSC), ranging from VTS, pilotage, towage, line handling and lock operation.

Applicants will have an appropriate marine background, with a good working knowledge of the PMSC and harbour operations, and experience of managing a 24/7 department. Sea-command is desirable, as is previous experience of working in the port sector.

There is a competitive salary and benefits package, and the successful applicant will need to be located within an appropriate distance of Bristol. Expressions of interest and CVs should be sent to:

Kieron Flower, HR Director
