

HELP US KEEP THE WORLD MOVING

Senior Manager Marine Operations, Port of Liverpool

Salary: Competitive - plus benefits
Job Ref: PPG-1412

Contract: Permanent
Closing Date: 7th April 2023

About Us

Already one of the UK's leading port and logistics companies, we have ambitious plans to grow and transform the supply chain to benefit our customers. With multiple settings across the UK and a huge choice of career paths, our business offers exciting opportunities to expand and develop your career.

Much of our success depends on our unrivalled facilities and technology. But in our sector, it comes down to having the right talent to enable our organisation to grow. So, if you want to join a thriving and ambitious place to work, where you will be able to broaden your knowledge and progress in your career, a future with Peel Ports could be for you.

Role Summary

The Senior Manager Marine Operations role, within the Marine Department, is responsible for delivering marine operations (24/7) for the Port of Liverpool, including Liverpool Container Terminal, and the Manchester Ship Canal. These duties are also undertaken for the RoRo division (including Heysham Port) on behalf of the Port Director/Duty Holder.

Responsibilities

- Define, communicate and deliver long term strategy for area of responsibility based upon the combined direction det by Port Directors and the Group Harbour Master
- Lead and promote marine and navigational safety for the port area applying the powers of the Harbour Authority and in compliance with the Group Marine Safety Management System and Port Marine Safety Code
- Lead positive customer engagement, and complaint/conflict resolution, to drive the highest standards of responsiveness and service, always balanced against wider commercial and statutory considerations and the optimisation of EBITDA
- Deliver an effective pilotage service including the oversights of pilot training and pilot authorisation
- Ensure statutory compliance with marine regulations, under delegated responsibilities from the Group Harbour Master
- Ensure appropriate levels of marine emergency preparedness, including maintenance of formal emergency, and oil spill response plans
- Manage large operational OPEX budget accountable to the relevant Port Director
- Ensure the provision of effective port control and dock/lock operation, with the appropriate designation (LPS/VTS), within area of responsibility. Ensure provision of conservancy such as buoyage, hydrographic survey and dredging

Skills and Experience

- Experience of running an operational team ideally within a technical, logistics or operational environment, and working under strict statutory/compliance frameworks
- Knowledge of Port Marine Operations, experience working at Sea or in Shipping or as a Harbour Master or Deputy Harbour Master
- Experience of managing high value operational budgets
- Proven ability to form positive internal and external relationships, but not afraid to influence opposition and challenge if its in the Company interest or to enforce statutory obligations
- IOSH Managing Safely would be advantageous

What we can offer you

By joining Peel Ports, you will be part of an ambitious organisation who has invested over £1billion into key projects to future proof our business, creating 1000s of jobs for local communities along the way. These investments mean we are decarbonizing our operations, which in turn is helping us work towards our goal of having Net Zero Port Operations by 2040.

It's not only our infrastructure we are investing in, we are big believers in investing in our people. We are constantly looking for opportunities to help our people grow and develop by offering training, development and apprenticeship opportunities in a range of areas including; Operations, Marine, Engineering, HR, IT, Accountancy, plus many more!
